

Our Chicken is Stuck in Space!

Help! Our Robot Space Chicken Bob is lost in space, and we need YOU to guide him back to the Kids Invent Stuff Workshop. But watch out space is tricky and there's a challenging maze ahead!

Your Mission:

Can you find the right way to get Bob the Chicken home? Use your super skills to follow the path and escape the maze! But here's the twist, if you come across one of our other inventions, you've taken a wrong turn! That's a clue that you need to backtrack and try another way. But feel free to scan the QR codes to see those other inventions in action!

Let's help Bob get back to the workshop before he floats away forever! Ready, set, go!
