

What would you send into space?

We sent a Robot Chicken up high into space using a weather balloon!
Now it's your turn to plan a mission.

What will you send into space?

Draw your design here:

How will you keep it safe?

Space is very cold, there is not much air and it's a long drop to earth.

What will your object see when it reaches space?

Draw a picture of what your object will see when it reaches space.
