

Hedgehog Materials Investigation

Meet our Hedgehog Hero!

He loves keeping things clean, but he needs the right materials to do the job. It's your mission to investigate different materials and test how well they pick up dirt.

Let's found out

Which material is best at picking up dirt?

Materials to test

- Felt
- Sponge
- Brush/bristles
- Fabric

'Dirt' to use

- Dry rice
- Sand
- Soil
- Shredded Paper

Method

1. Spread a measured amount of "dirt" on a tray
2. Attach or hold the test material
3. Push it across the surface 3 times
4. Collect what it picked up
5. Measure the result: by visually scoring 1-5.

Results

Material	Rice	Sand	Soil	Shredded Paper	Total Score
Felt					
Sponge					
Brush					
Fabric					

Conclusion

Which material would you choose for your hedgehog cleaner and why?
