

# Hedgehog Recycling

Ezra's hedgehog is very good at collecting rubbish from around the school. It helps keep our playground clean and tidy. But it's not sure how to recycle everything and it needs your help!

## Go on a rubbish hunt

1. Go on a rubbish hunt around your school and collect any litter you find.
2. Look at each item and decide if it is paper, plastic, metal or something else.
3. Draw or write each piece of rubbish into the correct group on your worksheet.

Paper 	Plastic 	Metal 	Other 

## Discuss

- Why is recycling important?
- Can you think of one thing you recycle at home or school?
- What happens if we don't recycle our rubbish?
